Where identified issues fall outside the scope of the project, project variations will be considered or recommendations for future work will be documented.

**Validated revisions**

Final submission of the final products to the Manufacturing Alliance Chief Executive Officer

**Final consultation if required**

Final consultation of public and government consultation. If there are any further amendments to the proposed changes.

If any issues cannot be resolved, an independent panel will be established to resolve the issues.

The Manufacturing Alliance will provide the final products to the Manufacturing Alliance.

The final products will be released to the National Register of VET. Notification of the release along with the final submission documents will be published on the Alliance website once the release is complete.
